

The background of the slide is a light gray gradient, decorated with numerous realistic water droplets of various sizes. Some droplets are large and prominent, while others are small and scattered. They are rendered with soft shadows and highlights, giving them a three-dimensional appearance. The droplets are distributed across the entire slide, with a higher concentration in the top and bottom corners.

ANALIZA TEMATYKI PROJEKTU I UWARUNKOWAŃ JEGO REALIZACJI „KRONIKARZ”

The screenshot displays the GRAMPS (Genealogical Research and Analysis Management Programming System) software interface. The main window shows a circular family tree diagram with the central figure being Lewis Anderson Sr. The tree branches out to show his descendants, including his wife Martel and their children: Garner, Robert W., and Eugene Stanley. The interface includes a sidebar with navigation options like Dashboard, People, Relationships, Families, Charts, Events, Places, Geography, Sources, Citations, Repositories, Media, and Notes. A 'Filter' dropdown is set to 'Descendants'. An 'About gramps.exe' dialog box is open in the foreground, displaying a portrait of a man and providing information about the software version (GrampsAIO32-5.0.1-1), its dependencies (Python, BSDDB, SQLite), and the operating system (Windows). The dialog also includes links for 'Credits', 'Licence', and 'Gramps Homepage'.
